MORE INFORMATION

Handy wireless remote with torch

Don't get tangled up in wires and cords when you're trying to relax! This bed is fully controlled by a handy wireless remote that even has an in-built torch!

Adjust your head and foot height

Don't adjust your body to your bed, adjust your bed to your body! This bed has head and foot lift mechanisms to help you find the exact angle and height you need to reach optimum comfort.

Fully remote controlled!

Forget fumbling around in the dark for controls on the side of your bed, this bed is 100% remote controlled! Lay back, and at the touch of a button you can customise your comfort!

Save memory position

Found the perfect position for you? Use your handy remote to save this position. Then in future you can hit the Memory button and instantly be taken to your saved position. Magic!

One touch flat bottom

Forget fiddling with confusing controls and easily return your bed to a flat position in an instant with the one touch flat bottom button on your remote.

USB ports to keep your devices at 100%

Nobody likes a dying phone battery. So keep your devices on 100 with the handy USB charging ports hidden in this bed's frame. Now you can scroll to your heart's content.
